Rock Hill, SC 29731

Dear Rolf:

I was glad to hear that our paper "Category effects in color memory" is accepted and on its way to the printers. I will notify my co-authors.

With respect to your opponent-color query, I enclose an article by Gerald Jacobs that was prepared at my request to form part of a special 25th Anniversary issue of Vision Research (volume 26, No. 9). Although I have enclosed the entire article, much of which deals with physiological data, the section starting on page 1538 should provide the information you requested.

Sincerely yours,

A handwritten signature in blue ink that reads "Bob".

Robert M. Boynton
