Union Metropolitan Park
Union, New Jersey 07083

Dear Rolf:

I agree with and fully support your statements in your letter to APPLIED PHYSICS. I do recommend two editorial changes:

1. Especially since the subject of this letter may prove to be a somewhat sensitive one, I recommend the use of the conventional spelling of the word denoting a lack of symmetry.
2. In your TABLE I, X and Y should be x and y, and the Δ has been omitted. Also, for clarity I recommend explicitly stating the Y, x, y values of the standard.

Thanks for sending me your comments.

Sincerely yours,

A handwritten signature in cursive script that reads 'Henry'.

Henry Hemmendinger
